

# Traditional supplemental retirement plan contribution remittance structure.

## Enhanced Vendor Contribution Management

- 403b Partners manages all contributions, new enrollments, changes and remittances.
- Plan sponsor remits a maximum of four (4) potential sources of contributions, regardless of number of vendors.
- If a new vendor is added, changed, deleted, the 4 plan contribution sources remain.
- Allows for the addition of new vendors or product with modifying the payroll process or adding new “slots”.
